This addendum is published to clarify and provide additional information regarding the referenced Request For Bid, which was reviewed with attendees at the pre-bid meeting held July 31, 2007.

1. If prior arrangements are made with the building supervisor, the contractor may be allowed to park their equipment overnight at the MoDOT maintenance facility at Chillicothe, Missouri.
2. The base amount of 10 CUYD's of materials in the bid price submission section has been increased to 30 CUYD's. Therefore, "Vendors should submit a total bid price to encompass all costs (materials, equipment, labor, moving/setup fees) as a flat fee, based upon providing up to 30 CUYD's of material. In the event more material is required to fill the voids and level the pavement, the vendor should also submit a unit price bid, which will be used to pay for any materials exceeding the base amount of 30 CUYD's."
3. When work commences on this project, it shall begin at job site location #1 and then shall proceed to job site location #2. If an unexpected amount of additional material is needed to properly complete all work at job site location #1 (beyond the included 30 CUYD's of material), MoDOT reserves the right to cancel the work at job site location #2 in order to remain within its overall budget constraints. If such a situation arises, MoDOT will still pay at least the overall total project bid price regardless of any partial work cancellation.
4. Work scheduling: A MoDOT representative will be present at the job site during all work hours. The contractor may work up to but should not exceed a 10-hour shift.
